Summary

- Undergraduate security student building strengths in digital forensics and incident analysis.
- Trained to narrow down causes through forensic competitions, CTFs, and hands-on practice.
- Care about reproducible analysis procedures and reports that are easy to review.

Education

- **Soonchunhyang University** — Asan, South Korea
  B.S. candidate, Department of Information Security (*expected Feb. 2027*) — *Feb. 2025 – Feb. 2027*
  - GPA: 3.73/4.5 (after senior spring semester)
  - 4th SW Frontier, SCH SW-Centered University Project Group (Apr. 14, 2025 – Nov. 28, 2025)
  - Grand Prize, 2025 SCHU AI & SW Festival SW Project Competition (Soonchunhyang University) / Stellar-Agent project
- **Financial Security Institute** — South Korea
  Financial Security Academy, 3rd Cohort — *Jul. 8, 2025 – Nov. 7, 2025*
  - Cyber Threat Response and Analysis Program
  - Studied financial-sector response procedures / Top Excellence Award (Financial Security Institute)
- **Daegu Catholic University** — Gyeongsan, South Korea
  Computer Engineering major; Cyber Security double major — *Mar. 1, 2020 – Feb. 11, 2025*
  - College of Software Convergence, School of Computer Software
  - Withdrawn before transfer
  - Overall GPA: 3.97/4.50; Major GPA: 4.04/4.50; Credits earned: 77.0/130.0
  - Excellence Award, 22nd TOPCIT Regular Evaluation 2024 (Daegu Catholic University SW-Centered University Project Group)
  - Grand Prize, 2nd Korea-Vietnam International SW Coding Competition (Gyeongbuk ICT Convergence Industry Promotion Association)
  - Best Team, 2024-2 Creative Challenge Semester Case Presentation (Daegu Catholic University)
- **Korea Information Technology Research Institute** — South Korea
  Best of the Best, 9th Cohort / Digital Forensics Track — *Jul. 2020 – Mar. 2021*
  - Built a used-goods fraud prevention platform; advanced to TOP 14 advisory board evaluation

Selected Experience

- **HSPACE FORENSIC LAB** — South Korea
  Member / HDFLAB — *Oct. 2025 – Present*
  - Participating in a DFIR-oriented forensic research community.
  - Solve the problem sets released each half-year and write them up as reports.
- **SCH Cyber Security Research Center** — Soonchunhyang University
  Member / Malware and exploit kit analysis research — *Sep. 2025 – Present*
  - Conducting security research centered on malware and exploit kit analysis.
  - Focus on ransomware and infostealers, and research automation of malware analysis and collection.
- **Busan Software Meister High School** — Busan, South Korea
  Club Mentor / Adjunct Teacher, Information Security Management — *Apr. 2023 – Present*
  - Appointed as a major-club mentor for four consecutive school years (2023–2026), advising student projects.
  - Taught the Information Security Management course as an adjunct teacher (Mar. – Jul. 2026).
  - Mentored teams — Maru (2023–2024), Solbit (2025), Dasom (2026).

- **i-Keeper** DCU
  CERT / DEV Member *Sep. 2023 – Jul. 2024*
  - CERT (Sep. 2023 – Feb. 2024): Analyzed and improved an analyzeMFT-based MFT parser.
  - DEV (Mar. – Jul. 2024): Managed team equipment and supported development.
- **Anti-root** Yeongnam Area, South Korea
  Founder and Team Lead *May 2017 – Feb. 2023*
  - Founded and led a regional security research team and seminars.
  - Presented on honeypots, USB recovery, CloudGoat, YARA, and email forensics.
- **Republic of Korea Air Force** South Korea
  Cyber Security Soldier, 825th intake *Apr. 2021 – Jan. 2023*
  - Managed security devices, monitoring, policies, and blocking rules.
  - Supported security exercises and operational response procedures.

Selected Projects and Activities

- **IaC-Rule Set & MCP-Based Policy Audit Tool**
  Mar. 3, 2025 – Dec. 18, 2025 / Team project automating security policy audits with IaC rule sets, MCP-based AI, SBOM, and reports.
  - Owned the IaC part: implemented the CloudFormation parser (syntax validation, intrinsic tags, variable extraction) for the IaC-to-SBOM tool and contributed to part of the scanner integration; co-authored the conference paper.
- **Financial Security Academy 2025 Cyber Threat Response and Analysis Program**
  Jul. 8, 2025 – Nov. 7, 2025 / Studied financial-sector response procedures and solved DFIR-focused CTF challenges.
  - Received the program-wide Top Excellence Award as a team. Competed in seven contests as a team, including three international CTFs; owned the forensics track at the White Hat Contest qualifier and personally solved two challenges, including recovering a hidden message from a PCAP; the team placed 4th in the university division and advanced to the finals.
- **Digital Forensics and Incident Response Competitions**
  Dec. 2022 – Dec. 2025 / Traced execution and persistence artifacts in disk and log images, and organized them into timelines.
  - Owned web server image analysis at HCCC 2025, matching eight command-bearing requests in the access log against the web shell code and confirming a root cron entry.
- **i-Keeper / MFT Parser Improvement Project**
  Sep. 2023 – Feb. 2024 / Python. Improved GUI and analysis features for an analyzeMFT-based tool.
  - Built a PyQt GUI for the CLI-only analyzeMFT-based tool and hardened exception handling in its JSON output.
- **BoB - Used-Goods Fraud Prevention Platform**
  Sep. 2020 – Dec. 2020 / Python, PHP. Built a used-goods fraud post detection and alert platform.
  - Owned listing collection from three marketplaces, the MySQL schema, and the ELK stack; set detection criteria from the patterns and price distribution of 101 listings the team confirmed as fraud, and extended the results into publications.
- **Beta Reader — *Windows Digital Forensics Complete Guide***
  Sep. 2022 / by Seungmu Lee, BJ Public. Reviewed the manuscript and materials, and wrote an endorsement.

Selected Awards

- **KISA President's Award** / 3rd Cyber Attack & Defense Scenario Competition for Cybersecurity Education & Training (ATHENA 2026) / Sep. 18, 2026
- **Honorable Mention(Korea Forensic Society President)** / 8th–11th Digital Criminal Investigation Contest (four consecutive years) / Dec. 15, 2022 / Dec. 18, 2023 / Dec. 17, 2024 / Dec. 16, 2025
- **Top Excellence Award(Financial Security Institute President)** / Financial Security Academy 2025 / Nov. 7, 2025
- **Excellence Award(Korea Housing Finance Corporation President)** / 1st Yeongnam Cyber Attack Defense Competition, University Team Division / Oct. 15, 2025

- **Excellence Award(KISA President)** / 6th Honam Cybersecurity Conference Incident Response Competition 2025 / Sep. 18, 2025
- **Honorable Mention(KIISC Honam Branch Chair)** / 5th Honam Cybersecurity Conference Intercollegiate Incident Response/Analysis Competition 2024 / Oct. 2, 2024
- **Top Excellence Award(ROK Air Force Chief of Staff)** / 44th ROK Air Force Information and Communication Competition, Cyber Defense Track / Oct. 26, 2022
- **Honorable Mention(KDFS President)** / KDFS Digital Forensics Challenge 2020 / Nov. 20, 2020

Selected Talks and Publications

- **A Proposal on the Need for Preventing Fraud Damage in Online Direct Transactions: Focused on Fraud Determination Factors**
  KCI-indexed journal article, Korean Journal of Police Studies 21(1), pp.249–272, Mar. 2021, DOI: 10.22816/polsci.2021.21.1.009
  - Jangho Hyun, Dayeon Lim, Changyeob Lee, Jinwoo Lee, Hyunho Lee, Wonyoung Choi
- **Stellar-Agent: An AI Agent-Based Hybrid DevSecOps Policy Audit Framework Integrating IaC Rule Sets and Model Context Protocol (MCP)**
  2025 Korean Association of Data Science Winter General Conference Proceedings, Dec. 18, 2025, Paper No. 0032, p.118
  - Junyoung Jung, Changyeob Lee, Jeongmin Lee, Yusik Lee
- **Proposal of a Used-Goods Fraud Prevention Platform**
  Korea Institute of Information Security and Cryptology Winter Conference, 2020
  - Jangho Hyun, Hyunho Lee, Dayeon Lim, Jinwoo Lee, Changyeob Lee, Dongbin Oh, Wonyoung Choi
- **A Study on Domestic APT and Corporate Security Incidents**
  Korea Institute of Information Security and Cryptology Winter Conference, 2019
  - Changyeob Lee, Jinwoo Lee, Junghoon Lee, Museung Noh, Hyunsang Park
- **Problems and Countermeasures of Payment Card Hacking**
  Korea Institute of Information Security and Cryptology Winter Conference, 2018
  - Jinwoo Lee, Junghoon Lee, Changyeob Lee, Museung Noh, Hyunsoo Oh
- **A Study on RFID Skimming Attack Techniques**
  Korea Institute of Information Security and Cryptology Winter Conference, 2017
  - Gunwoo Kim, Taehyun Kim, Yuwon Seong, Sangjun Yeo, Jinwoo Lee, Changyeob Lee, Dalwon Lee

Skills and Interests

- **Digital Forensics & Incident Response (DFIR)**: Windows forensics, Linux forensics, network forensics, timeline reconstruction, incident analysis
- **Malware Analysis & Detection Rules**: Static analysis, dynamic analysis, PE structure, YARA
- **Security Operations**: Security monitoring, device management, policy and blocking rules, exercise response
- **Engineering**: Python, Backend, DevSecOps, IaC, OpenStack
- **Interests**: CTI, DevSecOps, Backend
- **Languages**: Korean (Native), English (Intermediate), Japanese (Intermediate)

Certifications and Credentials

- AWS Certified Solutions Architect - Associate (Jul. 26, 2023 – Jul. 26, 2026, expired)
- Digital Forensics Level 2, Korea (Dec. 22, 2022 – Dec. 22, 2028)
- Craftsman Information Equipment Operation (Issued Dec. 2022)
- Exterro ACE / AccessData (Jan. 11, 2022 – Jan. 11, 2024, expired)
- Internet Information Manager Level 2 (Issued Oct. 2020)
- Linux Master Level 2 (Issued Oct. 2019)
- Network Manager Level 2 (Issued Dec. 2016 – Valid until Dec. 13, 2031)
